

UNITED STATES ENTERTAINMENT FORCE

Immediate mission and action plan:

The USEF Non-Profit mission is to rally our coalition on four fronts as it relates to the immediate needs of those who wear and those who have worn the uniform of this great Nation. We also reach out to the future of our country, our children. Our new partners and cherished relationships all come together with passion and dedication to make a significant difference in the lives of those we have chosen to serve. The power of the resources of our coalition, which include managers, agents, artists, and heads of industry, dedicate themselves to making a positive difference in so many lives, spreading good will and hope throughout this great land. It is what **The USEF** stands for.

By utilizing our unique industry contacts including, talent, management, celebrity power, concert promotion, fundraising, special events, and donations, we are able to facilitate **The Force** of our missions.

In addition to our immediate mission below, we also have a long term plan of action, which extends far beyond the battlefield and the service below. It is covered in the outlining pages and on our website: www.theusef.org

THE FOUR FRONTS

1. **SERVING OUR SOLDIERS** who are coming home and their families in order to facilitate a positive return. To be an advocate of the needs defined as morale and welfare of those returning from combat and service.
2. **SERVING OUR FALLEN** who have been wounded and are currently in a Wounded Warrior Hospital. Whose needs are immediate and require special attention. As does the family members who's sacrifices cannot be forgotten but need to be addressed. A helping must be extended so that the power of hope and caring can be felt and used to better their lives.
3. **SERVING OUR VETERANS** who have worn The Uniform of the United States and have layed their lives on the line for this country's freedoms and security. We will stand with them to insure the respect and pride of being a United States Veteran will be lifted up and Patriotism will be reborn. We will work with the government to help insure that all of the resources of this country will be made available.
4. **SERVING OUR CHILDREN.** Here in the United States we have the opportunity to give our children that have been left behind a fighting chance. Those who's health has been impaired by existing in unhealthy environments and poverty. The USEF can rally around these children and tears can be replaced with smiles and the promise of hope.
